

# About EPC

30+ Years in Business and the Skills to Prove It

From a two-man operation founded in 1984, EPC, Inc. has grown into a multi-million dollar, wholly owned subsidiary of CSI Leasing: The largest privately-held leasing company in North America.

With more than 400,000 assets processed annually, EPC continues to be a worldwide industry leader providing Information Technology Asset Disposition (ITAD) to thousands of customers annually via 9 facilities throughout North America. In addition to providing the most significant service footprint for North American ITAD Services, we've expanded our influence globally via our connection to CSI Leasing and our vetted international partners.

Our more than 300,000 sqft of secured, certified facilities across North America allows EPC to provide service to any size client almost anywhere. Whether you're a small local start-up company, or a Fortune 100 company, we have the proven infrastructure and experience to reduce your risk, and ensure real return on your ITAD investment.

Contact EPC today to learn more about what options will provide you and your company with the peace of mind you deserve.
